is no "access gateway" used as a bridge between them. Rather, a direct communication link is established between the remote portal and the customer service representative. Independent claims 19 and 25 have been amended to more clearly recite this aspect of the present invention, and are therefore patentable over Randle. Dependent claims 20-24 and 26-35 are patentable for the same reasons with regards to the independent claims.

Based on the foregoing amendments and remarks, allowance of the claims in the application is respectfully requested. If any issues remain unresolved, applicants would welcome the opportunity for a telephone interview to expedite allowance and issue.

Respectfully submitted,
